

Outsights Internship Opportunities

Outsights (www.outsights.co.uk) is a strategy consultancy specialising in the future. Established in 1996, it helps clients anticipate, interpret and act on important developments in the outside world. Dedicated solely to Futures work with over a decade of experience across the globe, in government, blue chip companies and NGOs, Outsights helps clients address future issues through Scenario thinking, Horizon scanning, Strategic facilitation Leadership Development, and develops its own futures content - the 21 Drivers of the 21st Century™.

We have an opportunity for a recent graduate to join our team as an intern to play a key role in research and internal projects. You'll need all the usual: excellent communication, organisational and research skills, the ability to work independently and be a proactive team player. What will make you stand out will be your ability to be effective in disciplines outside of your comfort zone, willingness to get "stuck in" to projects and curiosity about the Future!

Your role will include:

- Conducting research across a range of disciplines
- Research and analysis for projects
- Assisting event administration and project coordination
- Taking part in Outsights Young Leaders programme

Competencies

- Desktop research skills across a range of disciplines, including those outside your comfort zone
- Proven written communication skills
- Proven organisational skills
- Good understanding of international issues
- Proactive team player
- Ability to work independently
- At least a 2:1 degree
- Curiosity about the Future

What you'll get in return

- Valuable experience in research and project management
- Flexible time: can be full time or part-time according to your needs
- Opportunity to learn directly from the senior consultants and directors of the company
- Daily stipend

Timeframe

- Three to six months

About Outsights

Outsights is a dynamic consultancy working with some of the world's largest organisations including Shell, Unilever, Thomson Reuters and the UK Government for which we have recently completed a pioneering scan of the future to 2050 (www.sigmascan.org). Visit our website (www.outsights.co.uk) for more about us and what we do.

How to apply

Please apply with a **one page** cover letter saying why you would like to work at Outsights and a summary CV and to Bonnie Khan (bonnie@outsights.co.uk). Candidates without cover letters will not be considered. Only successful applicants will be invited for an interview.
